Overcoming challenges to achieving good water status in urban areas

The 'WATER WORKS' platform meeting gave LIFE projects an opportunity to discuss ways to improve water management and reach the goals of the Water Framework Directive and other EU water policy.

Enabling a step change in policy implementation

'WATER WORKS' looked at the environmental and economic impact of previous water investments in the north-west England river basin. The platform meeting also highlighted the potential of LIFE integrated projects to provide a 'step change' in water management.
